Average Draft Position 2004 is sponsored by :

- Only Serious mock drafts are used to generate this ADP data.
- I've also added an entry so you can see TEs and WRs in the same list.
- Any Player not selected in at least 3 drafts will not be displayed.
- Computer Selections have never been included in this info. I exclude any computer selection. That's why the number of drafts a player in varies so much. If the computer selects Faulk often, he will have a smaller number of Drafts he is included in vs another player.

If a player is missing, change the Date to an eariler day. For all players to show up, there needs to be enough drafts for the tool to work. If the results look strange and the number of drafts is low like 5 or less, try moving the date back.
